Replacement Migration In Canada: The Years 1989 To 1998

Nick Griffin Denounces "Kalergi Plan" At European Parliament
TV
Ensuite, ce fut un «experiment multiraciale». Après,
ils étaient des «réfugiés». Puis «la réponse à une

The Kalergi Plan was laid out for Europe a century ago. The goal was to ultimately get rid of all the whites, with a combination of open doors immigration, depressed local birth rates, and miscegenation. That said, the plot is not limited to Europe, but to all white countries.

Forced diversity is code for genocide.

1. Mass LEGAL Immigration In Canada

Despite what many think, ***LEGAL*** immigration into Canada is actually a much larger threat than illegal aliens, given the true scale of the replacement that is happening. What was founded as a European (British) colony is becoming unrecognizable due to forced demographic changes. There are also social, economic, environmental and voting changes to consider. See this Canadian series, and the UN programs for more detail. Politicians, the media, and so-called “experts” have no interest in coming clean on this.

Note: If there are errors in calculating the totals, please speak up. Information is of no use to the public if it isn't accurate.

2. Genocidal Population Replacement Long Time Problem

Let's have a look at some of those recent years. While 2003 to 2020 has already been covered pretty extensively on this site, the problem extends much further than that.

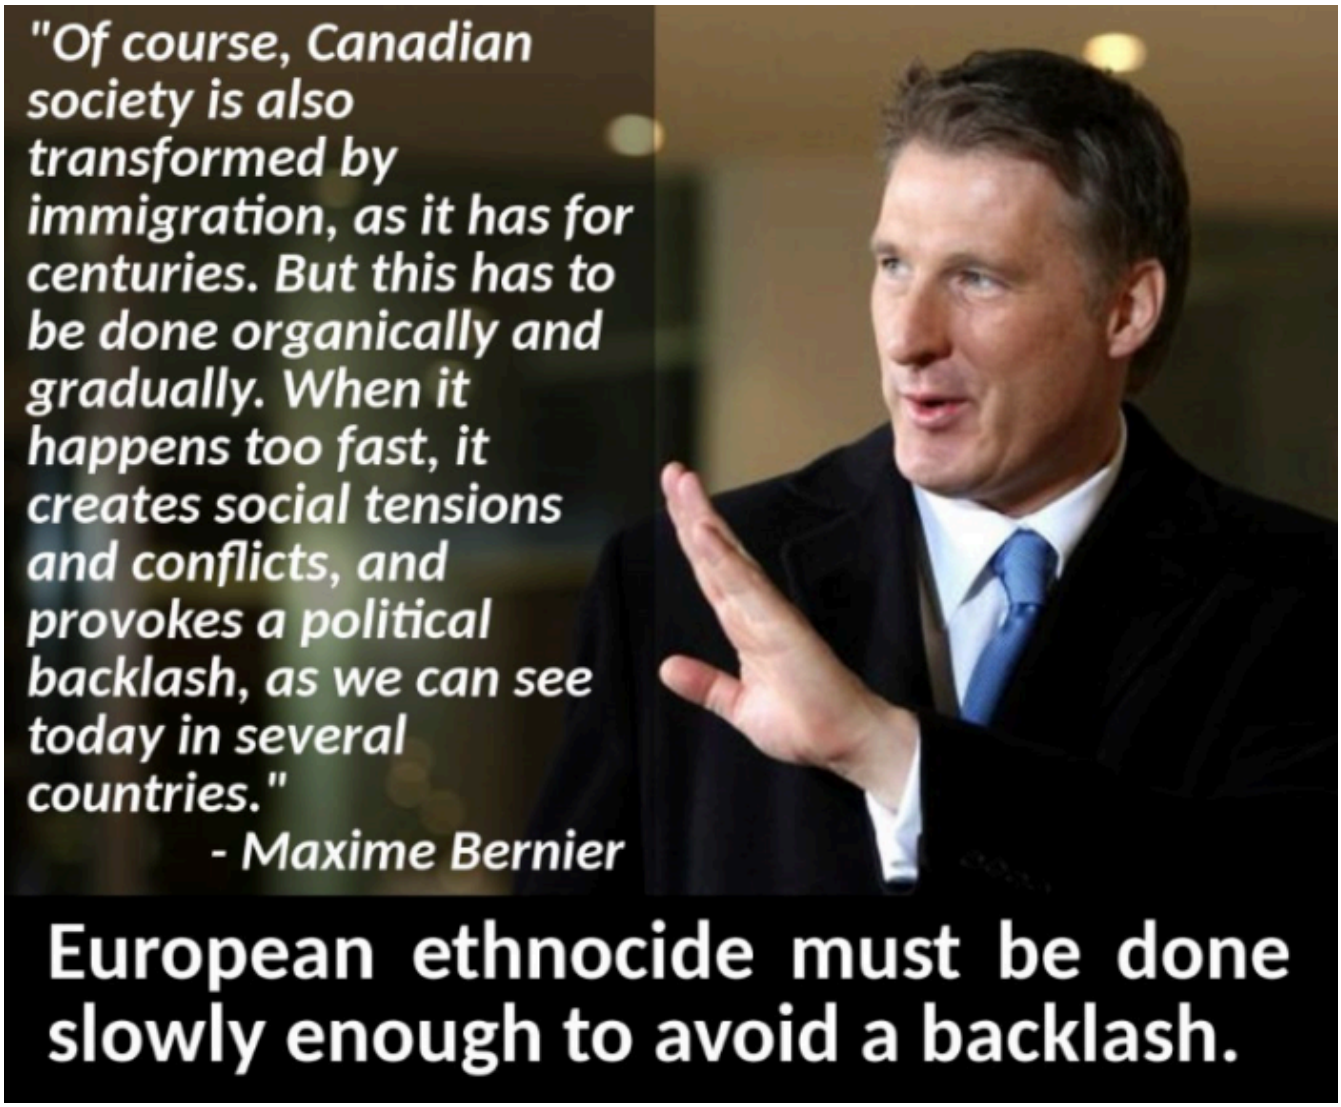
Source for 1995/1996:
Source for 1996-1998

Are things starting to make sense? Immigration policies for the last 50+ years have focused on Asians and Africans, replacing (to a large degree) the overwhelmingly European makeup that was Canada for many years.

Of course, speaking up about what's apparent will lead to cries of racism.



"Of course, Canadian society is also transformed by immigration, as it has for centuries. But this has to be done organically and gradually. When it happens too fast, it creates social tensions and conflicts, and provokes a political backlash, as we can see today in several countries."
- Maxime Bernier
European ethnocide must be done slowly enough to avoid a backlash.

Tory leadership candidate Pierre Poilievre denounces 'white replacement theory'

One thing people really need to get clear: so-called “conservatives” have no interest whatsoever in preserving demographics or the makeup of a country. They fully support the genocide agenda, but try to pitch it from a more economic perspective.

White replacement is a very real thing. Only the most obtuse or unobservant cannot see what’s going on, especially given how blatant it is..

While Liberals are generally quite open for their disdain of Europeans, “Conservatives” behave in a stealthier and more subversive manner. They camouflage their true intentions, making them more dangerous.

A little self promotion: Borderless Canada is still available online. Learn about what’s been going on in this country. Virtually all major issues can be directly tied to immigration and border security, and it’s not racist or bigoted to discuss these hard truths.

MAY 24, 2022 AT 6:32 AM

If people continue to vote in these manufactured consent events (elections) and if they keep believing professional World Government politicians, such as Poilievre, they deserve what they get. Plain and simple. The evidence is all out there, and now there is no excuse for wilful blindness and stupidity.

Thanks for doing this hard work Ronnie…too bad more Canadians were not like you.
